Introducing Scriptmax™, the new pharmacy claims analytics service from Innovatix.

Scriptmax offers the most complete pharmacy claim adjudication support in the industry. Convenient Web-portal access with exportable reports means you can access your claims information anytime, anywhere.

Through a comprehensive suite of services, Scriptmax empowers pharmacies with actionable claims review data during every step of adjudication.

BUSINESS INTELLIGENCE MADE SIMPLE. USE YOUR DATA YOUR WAY.

PRE-EDIT

Real-time claim validation that maximizes reimbursement and minimizes rejected claims.

Sample pre-edit features include:

- AWP Verification
- NDC Updating
- DAW Code Validation
- Drug recall
- Standard dispensing quantity

POST-EDIT

Timely feedback on submitted claims enables corrections within the post-adjudication window.

Sample post-edit features include:

- Actionable reports to reduce future claims errors
- Acceleration of retrospective claims action
- Margin analysis
- Contract rate verification

RECONCILIATION

Automates third-party payment reconciliation and contract rate compliance.

Sample reconciliation features include:

- Claim-by-claim reconciliation of third-party payments and adjudicated amounts
- Flag unpaid/underpaid claims and open receivables
- Track reimbursement rate discrepancies and transaction fees
