

## Pharmacies run on retail. Retail runs on Activant.

With shrinking Rx margins, growing competition and a tough economy, pharmacies rely on retail to attract customers, build loyalty, and grow revenues and profits.

That's where we come in. At Activant, we've dedicated 35 years to helping single and multi-store retailers provide exceptional customer service, run more efficiently and maximize their profits. Today, our fully integrated business management solutions give pharmacies and thousands of retailers across North America the power they need to thrive and grow.

Don't let the challenges of retail limit your pharmacy's success. Speak to an Activant pharmacy specialist today and discover how easily and affordably Activant can take your pharmacy to the next level. And beyond.
