

# From design to disposables, we're your one point of contact for cleanroom compliance and operation.

When you need cleanroom equipment, you'll find our same expert, friendly, service-oriented philosophy applies to our equipment distributorships as well.

When it comes to hoods, it pays to know what we know. We'll save you money by matching the right hood to your need (both technically and financially) and, in many cases, we can beat the price you'd pay if you went directly to the manufacturer.

We are always upgrading our growing customers and have a choice selection of refurbished hoods for those tight-budget projects. Our used inventory will provide you with an affordable serviceable backup or secondary hood, too.
