

# USP <797> COMPLIANCE

## Why Test For Endotoxin?

USP <797> requires that Compounding Pharmacists test certain high risk Compounded Sterile Preparations (CSPs).

## What Are Your Options?

Either send out to a contract lab, or test in-house.

Associates of Cape Cod's Pyros Kinetix® Flex Endotoxin Detection System provides a cost-effective, in-house endotoxin testing solution.

- **Compliance:** Meets USP requirements
- **Cost-Effective:** Significant cost savings available
- **Rapid Turn-Around:** Results possible in under 60 minutes
