

# How is your pharmacy managing through CPOE adoption?

From affordable remote medication order entry services to web-based tools, we deliver the expertise and resources to help you succeed.

### Remote Order Entry Service

Pharmacy Solutions provides remote medication order entry and review by pharmacists trained on your policies and procedures, who are fully licensed and state board approved, at one of our pharmacy service centers. Moreover, this service generally saves hospitals 20%-30% or more of what it would cost to staff the overnight hours.

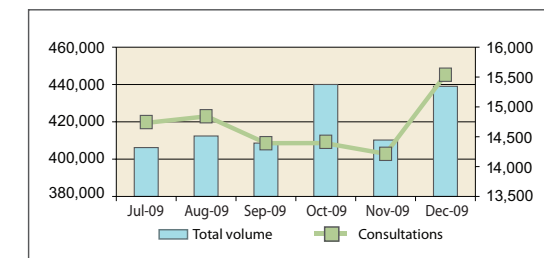

### Remote Order Entry Service value to 165-bed hospital

One-year value to hospital = \$278,119

### Medication Order Management System

Pharmacy Solutions' easy-to-use, web-based tool empowers you to optimize service through automated medication order management with integrated clinical intervention tracking and robust reporting on productivity, quality and clinical metrics.
