

We can use it Meaningfully!

It's time to roll up your sleeves

Complying with CMS Meaningful Use Criteria is requisite for hospitals to receive ARRA funding now and avoid reimbursement penalties in the years to come.

Stage 2 Meaningful Use Criteria is official:

"Automatically track medications from order to administration using assistive technologies (such as radio frequency identification (RFID) or bar coding) in conjunction with an electronic medication administration record (eMAR)."

Centers for Medicare & Medicaid Services:
42 CFR Parts 412, 413, and 495

BCMA not only protects patients and caregivers, it's good business.
