

**Stericycle®**  
Protecting People. Reducing Risk.™

# Pharmaceutical Waste exists throughout the Hospital and can be a challenge to manage.

*New Flat-Fee Pricing*

## Stericycle makes it simple.

### Rx Waste Compliance Service

A complete service providing disposal of Rx waste in compliance with EPA/DOT regulations and The Joint Commission standards.

The Stericycle integrated approach includes:

- Formulary characterization and coding
- On-site education of healthcare facility staff
- Implementation of a color coded container system
- Transportation and destruction
- On-site services and training

### Environmental Benefits

- Keeps pharmaceuticals out of the water
- 91% of reusable containers are reused
- Based on a 24 month study in a 150 bed hospital, on average, 4.0 tons of plastic was diverted from landfills.
