

THE LEADER IN ADVANCED PHARMACY SOLUTIONS

**Increasing patient safety
and efficiencies in your
pharmacy requires the
right partner.**

As a provider of best-in-class automation and workflow solutions for many pharmacies across the world, ARxIUM should be at the top of your list when considering pharmacy technology. We specialize in providing:

- Unmatched IV compounding, dispensing and packaging automation
- Value-driven inventory management and workflow software
- Expert consultation for production and workflow design
- Industry leading unit- and multi-dose oral solid packaging
- Custom-designed, high-volume solutions for hospital cabinet replenishment, mail order and central fill operations
- Smart and scalable vial-filling solutions for retail and outpatient pharmacies
- Exceptional customer service
