

FRONTRANGE LABS

QUALITY. COMPLIANCE. SCIENCE.

Whether you are a traditional compounder needing a few tests for a state board requirement or a 503B just starting up, Front Range Labs has the staff, technology, and knowledge to take care of all your quality control needs.

We offer quality control essentials such as sterility testing, BET, assay, and identification as well as comprehensive validation, verification and development services. Let Front Range Labs take care of your environmental monitoring, media fill, process fill, microbial identification and other regulatory obligations.

FDA Registered. ISO17025:2005 Accredited. DEA licensed.
