

## PHARMACY WORKFLOW SOFTWARE

**DocuTrack** – the industry's leading workflow and content management system that stores, organizes, routes, and retrieves healthcare documents and media.

**DeliveryTrack** – a delivery management system that uses mobile devices and the Android platform to collect electronic signatures for proof of delivery and provide real-time data.

**Logix** – business process automation software that automates repetitive, time-consuming, error-prone tasks.

**Integra Cloud Fax (ICF)** – a comprehensive fax solution that migrates data transmission to the cloud for reliable, cost-effective transmission, failover, and redundancy.
