

The Leading FDA 503B Outsourcing Facility and Only Certified HUBZone 503B in the United States

RXQ COMPOUNDING, LLC
FDA 503B OUTSOURCING FACILITY

**Guarantee Safety, Availability, and Compliance by Making
RXQ Compounding, LLC Your FDA 503B Outsourcing Facility**

Why Choose a 503B Outsourcing Facility?

- Products do not require a patient specific prescription.
- Required by the FDA to follow strict testing standards for sterility, potency, and endotoxins.
- Products are compounded in ISO clean rooms that are continuously monitored for particulate matter and environmental conditions.
- Ability to provide drugs on the FDA Short List.
- Must comply with current good manufacturing practice (cGMP) requirements and U.S. Pharmacopeia Guidelines (USP) and follow state regulations and voluntarily register with the FDA.

Why Choose RXQ Compounding, LLC?

- Highest quality sterile and non-sterile manufacturing.
- ISO 5 clean room sterile production.
- Safety, availability, and compliance.
- Integrated delivery network and ability to deliver custom compounding.
- 50,000 sq. ft. future production facility.
