

# Syringe filling & labelling made easy!

- ✓ increases productivity
- ✓ saves time and money
- ✓ reduces repetitive motion injuries

## PRAXiFILL

PraxiFill™ is an automated syringe filler intended to increase productivity of the syringe filling process by eliminating the tedious manual task of aspirating solution into the syringe and capping the filled syringe.

## PRAXiLABEL

PraxiLabel™ is a semi-automatic tabletop syringe labeler intended to increase labeling productivity as it eliminates the work related injuries due to frequent hand and wrist movements involved in the syringe labeling operation.
