

Elevating the standards in 503B pharmaceutical outsourcing.

Leiters Health helps our partners gain more control over their medication supply. We serve as an extension of your pharmacy, helping to standardize your portfolio, prevent shortages and determine when to outsource or compound in-house.

With increasing drug shortages, supply chain disruptions, and staffing concerns, access to quality compounded medicine is more important than ever. Our products include:

Pre-filled IV bags, syringes and vials.

Opioid-free surgical pain services medications.

ON-Q* Pain Relief System Pharmacy Fill Service.

Ophthalmology medications including FDA-compliant repackaged Avastin®

Contact us to learn how we can support your hospital pharmacy and your patients.
