

NEW

AVAILABLE IN STERILE OR NON-STERILE

RxCarbon® Poly

NEW 11x17" Chemo Mats & Cleanup Wipes

Unlike **White or Blue Mats**,
our **Gray Mats**, with **TWO**
layers of **RP718 Activated**
Carbon, **Sequesters**
Hazardous Drugs

Specifications:

- Validated Sterile, Gamma Irradiated
- 600 ml spill capacity
- RxCarbon Poly protects surfaces during transport, storage, compounding, and infusions.
- Virtually eliminates cross-contamination of liquid hazardous drugs
- Meets ISO 9073-10 and BS EN 13795 standards for low lint and low particulate matter

RxCarbon® Poly Protects:

Employees, patients, and environment by deactivating and absorbing HD/Oncology liquids during:

- Administration, Infusion, Spills, Transporting, and Compounding

The Next Generation Surface Protection & Wipe With Hazardous Drug (HD) Deactivation

Easy

Place RxCarbon Poly on the surface. Hazardous Drugs are adsorbed/absorbed preventing surface contamination.

Green

Hazardous drugs are prevented from being released into the environment and contaminating our water.

Responsible

Protect healthcare workers, patients and the public from hazardous oncology liquids.

RxCarbon® Poly
A Lot Safer For A Lot Less
