

# NSF/ANSI 456 Vaccine Certified GX Solutions Medical-grade Cold Storage

Ensuring safety and efficacy of  
stored samples and vaccines

GX Solutions professional, medical-grade refrigerators and freezers are designed for the safe storage of critical vaccines, pharmaceuticals, chemotherapies, and other medical/pharmaceutical materials.

Certified to the **NSF/ANSI 456 Vaccine Storage Standard** and help you meet guidelines from the CDC and other regulatory bodies.

Offer **best-in-class temperature optimization** of uniformity, stability, and recovery.

**ENERGY STAR®** certified, **50-60% more energy efficient** than conventional medical-grade refrigerators and freezers, and are environmentally sustainable.
