INFUSION PLATFORM

According to ISMP guidance for Optimizing Safe Implementation and Use of Smart Infusion Pumps, the goal for drug library compliance should be 95% or greater. Even a single percentage point increase in drug library compliance can significantly reduce the number of unprotected infusions.² Baxter infusion platforms with **Dose IQ** Safety Software deliver **97% compliance** within one month of implementation.¹

AVAILABLE IN THE **NOVUM IQ** INFUSION PLATFORM.
POWERED BY BAXTER'S **IQ ENTERPRISE**.

Rx only. For safe and proper use of the products mentioned herein, please refer to the appropriate Operator's Manual or Instructions for Use.

References: *The Novum IQ infusion platform leverages the same drug library technology as Spectrum IQ infusion pumps, which deliver an industry-leading average of 97% drug library compliance within one month of implementation.
