# Introducing the Next Generation of Pharmacy Automation and Software

Learn how your pharmacy can leverage real-time data through "analytics- driven" automation to:

- Improve efficiency and accuracy
- Reduce operational costs
- Enhance patient safety
- Optimize productivity

Only JFCRx offers a complete suite of pharmacy automation solutions managed through one cloud-based ecosystem, Enlite™. This transformative software turns any number of disparate systems into a single solution – and delivers a higher level of efficiency, analytics, and reporting than available before in the industry.

EnLite™ Management System

- **Rx** Order Routing
- Data Management
- **TruScript** Vial Filling
- **TruCheck** Pouch Inspection
- **TruPak** Pouch Automation
- **TruCard** Blister Card Automation
- Dashboards

TruSort™ COMING SOON!

TruSort is the industry's first fully automated pill sortation device, designed to easily return unused medication back to stock

Automation equipment is the first step in achieving efficiency. JFCRx layers software, analytics, consulting, and high-touch customer service to support your entire pharmacy operation.

JFCRx™ Analytics Driven Automation
