

Long-Term Care Pharmacy Accreditation. Wherever the patient calls home.™

Your pathway to operational excellence begins with accreditation.

Since 2008, The Compliance Team's (TCT) leadership and expertise in the LTC Pharmacy industry has guided providers in best-of-care practices with our **LTC Pharmacy Accreditation** program, quality standards, and knowledgeable LTC industry advisors.

Our accreditation program focuses your pharmacy on continuous quality improvements — helping to ensure your operations and services meet and/or exceed industry quality standards of care for your patients in LTC facilities, at home, community settings, or *wherever the patient calls home.*™

Exemplary Provider® accreditation from TCT, a nationally recognized, CMS-approved accreditor, assures patients, employees, referrals, and payers you've achieved the highest level of healthcare delivery in the industry.
