Company Background

SuiteRx is an independently owned pharmacy software company catering to long-term care, retail, combination, mail-order, multi-location, specialty, and various other pharmacy environments. Pharmacies using our applications find more time for patient-focused care because their once manual tasks are now easily automated. Leverage the power of our highly configurable workflow, reap the benefits of our data extraction and analysis methods, and find value in the consultative approach our implementation team takes to align our software to your business goals. Over the years, we remained dedicated to developing our people, strengthening our capabilities, and building trusting relationships with our clients and partners. We also pride ourselves on providing superior talent to deliver high-quality pharmacy solutions aligned with the key objectives of our clients: operational efficiencies, increased staff productivity, integrated technology, and streamlined processes. We do so with flexibility and nimbleness that fit your goals — not ours. If you are looking for an all-inclusive pharmacy software solution at an affordable cost without sacrificing quality, SuiteRx Software is the right choice for you! Current SuiteRx product offerings include: SRx, SRxGateway, MyRx, SRxDelivery, SRxUniversity, SRxConnect, SRxAPI, SRxGen, SRxAffinity, SRxAssist, and SRxLogistics.

Product Overview

Developed by pharmacists, for pharmacists, our SRx program enables independent and small chain pharmacies to use state-of-the-art technology to better meet the needs of their customers and increase speed and accuracy in the pharmacy. With retail, long-term care, specialty, 340B, and combo versions of the software, SRx is a comprehensive solution that integrates document management, delivery, POS, inventory management, web portal capabilities, and compounding into one seamless application.

- **SRxAPI:** Organized around rest and has predictable resource-oriented URLs, accepts form-encoded request bodies, returns JSON-encoded responses, and uses standard HTTP response codes, authentication, and verbs.
- **SRxConnect**: Our enhanced customer service website offers solutions not only for support issues, but also custom requests.
- **SRxUniversity:** Online computer-based training program to help train clients and employees on SRx.
- **SRxDelivery:** Real-time delivery information and e-signature capture. The application is available on different mobile devices (Android, iOS, and ipadOS).
- **MyRx:** Allows patients to refill prescriptions, look up drug information, and communicate with your pharmacy from their mobile device.
- **SRxGateway:** Provides communication tools, including EMAR capabilities and refill requests between facilities, physicians, and your pharmacy.
- **SRxAffinity:** Provides views of almost real-time business performance by aggregating metrics from SRx dispensing data and converting it into actionable data for single or multi-site locations.
- **SRxAssist:** Instantly access patient medication profiles and dispense medications from anywhere in your facility using your mobile phone.
- **SRxLogistics:** Manage your pharmacy logistics and monitor inventory in real time. Use our mobile app to scan drug barcodes, streamline workflows, and ensure precise inventory control.

Testimonial

"I would like to say what a wonderful, supportive, and professional team they have. Anytime I call for an update or something I would like changed, I get a response within minutes, and it's always done in a friendly and professional manner. SuiteRx will work on it until it's perfect, most computer companies would take days or even months to change something, but they are wonderful about working with their customers and making them happy right away. Thank you and keep up the good work!"

— Louise Wilcox, Manager Medical Records, IntegriScript Pharmacy
