Company Background

Since 2010, ISO-MED has been a medical supply distributor and trusted supplier, offering quality, selection, and convenience. We're committed to providing top-quality products for cleanrooms (503A, 503B, and manufacturers), laboratories, home care, infusion centers, cancer centers, retail pharmacies, veterinaries, and other medical industries in the USA.

At ISO-MED, we are dedicated to helping you achieve and maintain sterile and non-sterile compounding environments. Our goal is to ensure the safety of your products, your workers, and your compliance with regulations.

Product Overview

ISO-MED maintains an extensive portfolio of on-the-shelf warehouse supplies.

We offer customized supply plans, a seamless e-commerce customer experience, easy ordering with matching manufacturers, and dependable purchasing/supplier aggregation services.

With one-on-one scheduled training services, we increase the efficacy of your purchasing processes, consolidate your portfolio, and link your onsite supply demand to your inventory management processes.

Offering value-added services, we provide consistent customer service and are driven to help our customers save money without compromising quality.

Features & Options

In addition to compounding, cleanroom, and laboratory supplies, ISO-MED offers the following testing to supplies.

Environmental Monitoring Contact Plates

Surface sampling plates evaluate facility and material handling procedures, work surface cleaning and disinfectant procedures, and personnel competency.

- **ICR plus TSA LT**

- **TSA with Lecithin and Tween® (Polysorbate 80), USP**

These Hardy Diagnostic contact plates are recommended for cultivating microorganisms from environmental surfaces and feature a Lok-Tight™ lid that securely fastens to the base.
