Company Background

Founded with a mission to enhance the integrity and efficiency of health systems, Virtue 340B has established itself as a leader in 340B compliance and pharmacy management. Our journey began with a clear vision: empowering healthcare providers by ensuring adherence to 340B regulations, maximizing patient benefit, and organizational sustainability. Over the years, we have expanded our expertise and services, consistently paving the way for innovations in compliance audits and 340B program management. Our deep commitment to healthcare excellence and compliance has helped numerous pharmacies and health centers meet and exceed their operational goals.

Product Overview

Virtue 340B specializes in comprehensive 340B compliance audits and consulting services tailored to the unique needs of hospitals and health centers. Our services are designed to ensure full compliance with all 340B program regulations, minimizing risks and elevating efficiencies. Our consulting solutions cover everything from policy development to implementation strategies, helping pharmacies to optimize their 340B program operations effectively. Our flagship book, authored by our CEO and Founder, Edward Vargas, “340B Mastery: Transforming Risk into Reward in 340B Pharmacy Program Management,” is a resource that provides invaluable insights and strategies, aiding pharmacy managers and health system executives in navigating the complexities of the 340B program.
