Company Background

Innovatix is a national group purchasing organization that provides strategic purchasing solutions and operational support to help pharmacies and other providers across the continuum of care thrive. We supplement our industry-leading purchasing program with a consultative approach, in-depth analytics, vast healthcare expertise, and value-added and fee-based services specific to our members' needs. Innovatix works tirelessly to deliver savings and value to members.

Product Overview

Innovatix offers one of the most extensive, competitive purchasing portfolios available today. We provide members access to an \$83 billion purchasing portfolio comprising 3,000+ contracts through over 1,400 suppliers.

Value-Added Services

Innovatix member benefits extend beyond the significant savings we provide through our group purchasing services. While group purchasing is at the core of what we do, Innovatix is committed to offering additional value to help our members grow and excel.

- **Innovatix Educational Institute:** Each month, Innovatix offers free accredited Continuing Education (CE) opportunities. Members can take advantage of these learning sessions from the convenience of their own computers.
- **Government Affairs:** Based in Washington, D.C., Premier's Government Affairs office acts as an advocate for members of the Premier alliance — including Innovatix members — and the communities they serve. Every day, we're working to shape federal laws and regulations so they align with our members' efforts to drive innovation and lead the transformation to high-quality, cost-effective healthcare.
- **Clinical Experts:** Innovatix staff includes clinical pharmacists and physician consultants who provide members with best practice studies, disease state management information, formulary management, and medication error reduction strategies.

Pharmacy Operations Improvement Programs

Our suite of pharmacy operations improvement programs are designed to address your operations needs without distracting from your main mission — providing high-quality patient care.

- **Premier PSAO:** Successfully navigating Medicare Part D to maximize reimbursement on Medicare prescription drug benefit claims is a major challenge for many pharmacies today. Premier PSAO provides pharmacies access to Medicare Part D contracts with the nation's largest prescription drug plans and pharmacy benefit managers.
- **Scriptmax®:** Offers the most complete pharmacy claim support in the industry. Through a comprehensive suite of pre-edit, post-edit, and reconciliation services, Scriptmax empowers pharmacies with actionable claims review data during every step of adjudication.
- **PINC AI™ Clinical Surveillance for LTC Pharmacies:** Our clinical surveillance capabilities provide a comprehensive, real-time workflow solution for infection preventionists and clinical pharmacists. The technology can help detect, manage, control, and alert to improper treatment of infection-related conditions during COVID-19 and beyond by enabling: 1) automated alerts, including COVID-specific alerts, for patients suspected or confirmed for infections; 2) automated flags on patient records to allow for robust tracking of patients in an outbreak group; 3) comprehensive documentation forms, including a custom set specific to COVID and routine infections such as Methicillin-resistant *Staphylococcus aureus* (MRSA), *Clostridium difficile* (C. diff), and urinary tract infections (UTIs); 4) electronic submission of infections to the Centers for Disease Control and Prevention's (CDC's) National Healthcare Safety Network (NHSN) system.

Key Business Partners

Innovatix is a wholly-owned subsidiary of Premier, a healthcare improvement company uniting an alliance of over 4,400 U.S. hospitals and more than 300,000 other provider organizations.
