Company Background

Verity Solutions has been the leader in 340B program administration and now offers pharmacy supply chain optimization solutions for all healthcare entities. Recognized as Best in KLAS: 340B Management Systems for six years, and in the 2024 KLAS Emerging Solutions Top 20 Report, we are on a mission to create pharmacy excellence through predictable automation and outstanding support so that every customer can maximize their savings. We partner with integrated healthcare systems, acute-care hospitals, community health centers, federally qualified health centers, pharmacies, and 340B-eligible covered entities throughout the U.S. who rely on Verity software and services to successfully manage their pharmacy purchasing and 340B program.

Product Overview

Our powerful cloud-based software platform provides comprehensive 340B program management solutions, including split billing, contract pharmacy, and specialty contract pharmacy. Plus, a contract pharmacy gateway solution called VHUB®.

Our pharmacy purchase optimization products offer real-time, intelligent solutions that automatically verify contract pricing and select the best priced NDC available for your complete order. We enable pharmacy buyers to dramatically decrease drug spend and save time while maintaining supply.

Our depth of in-house technical and software development resources and our highly skilled account management team are closely aligned to swiftly adapt as changes arise. We offer:

- **Agile Software Platform:** Built and deployed with security, performance, scalability, and agility as primary goals. The Verity 340B platform is HITRUST® certified, demonstrating robust HIPAA compliance.

- **Intuitive Application:** Designed with our users in mind, we maintain ongoing feedback and collaboration with our clients. This collaboration steers our continual software and services development.

- **Responsive Support:** Designated account managers provide focused support, training, audit readiness, and regular business reviews to maximize your 340B program success and help you maintain compliance.

What Sets Verity Solutions Apart?

We continually invest in our technology and people to ensure success for our clients. With increasing pharmacy costs and complexity, it is more important than ever to have the right solutions — and the right partner.

■ **Highlights**

- Industry-leading core functionality of our platform with optional, patent-pending add-on modules to enhance all aspects of 340B operations in challenging and unique environments.
- Access to your own unique program test environment — before and after implementation. Test environment runs continually in parallel to your live system.
- Easy and exportable reporting functionality, including detailed data for manufacturer audits, HRSA audits, and UDS reporting.
- Multiple vendor support with controlled substances ordering system (CSOS) — efficiently place orders with both EDI (electronic data interchange) and non-EDI vendors.
- Two-week sprint release cycles ensure timely software updates driven by customer feedback, regulatory changes, and user needs.
- Verity Care Card Program — directly pass 340B savings to uninsured and underinsured patients.
- Referral capture opt-in functionality to compliantly add meaningful savings lift to your 340B program.
- Responsive customer service provided by our in-house staff — 80% of our customer support cases are resolved within two hours; 95% resolved within 24 hours.
