## Company Background & History

### ■ Delivering Exemplary Provider® Recognition for Over 25 Years

The Compliance Team, Inc. (TCT), a nationally recognized CMS-approved accreditation organization, was founded in 1994 with the fundamental philosophy that (1) every patient deserves exemplary care and (2) accreditation should not be difficult or costly to achieve if you focus on what matters most, Safety – Honesty – Caring®

It is a philosophy that providers immediately embrace when they start working with TCT and see how our simplified and patient-centric standards enhance their existing business model.

## Product Overview

### ■ Our new Clinical Disease Management program recognizes a pharmacy's expanding role from a transaction-based to a clinical-based services practice.

The Compliance Team recently developed and launched a new program that focuses on clinical disease management (CDM). Pharmacies that achieve the CDM recognition are acknowledged for their roles in helping patients with diabetes, hypertension, and cardiovascular diseases improve their overall health outcomes and quality of life. The program encourages pharmacies to transform from a transaction-based practice to a services and value-based care practice that promotes continuous, proactive, and patient-centered care in the community.

*"I look at value-based a couple different ways. I think most people just equate it to pay-for-performance, so if there's not additional dollars in the mix, then why do it? ... I see value-based as your pharmacy bringing more value to the patient, to the community, and to the prescriber. It's all about positive results."*

— Sandra Canally, Founder and CEO

### ■ Operational Excellence Leads to Clinical Excellence

Clinical Disease Management is available either as a sub-specialty of our Community Pharmacy program, the foundation of our pharmacy suite of services, or as a stand-alone certification program. Community Pharmacy, like all TCT programs, is operations-based, which makes it easier for pharmacies to integrate the standards into their day-to-day operations.

Community Pharmacy accredits your facility and all the products and services you provide, setting your pharmacy apart from the competition. In fact, we believe so strongly in our Community Pharmacy program that when we introduced Community Pharmacy in 2012, we bundled it with our Part B DMEPOS program. You get two accreditation designations for the price of one.

### ■ Our Pharmacy Accreditation Programs Include:

- Community Pharmacy (the core of all pharmacy programs)
- CMS Approved Medicare Part B — DMEPOS
- Long-Term Care
- Sterile and Non-sterile Compounding (USP Chapters 795, 797, and 800)
- In-Store Clinic
- Mail Order
- TelePharmacy
- Patient-Centered Pharmacy Home™
- CMS Approved Home Infusion Therapy (HIT)

### ■ Our Pharmacy Certification Programs

- Point-of-Care Testing Certification
- Immunization Certification (Adult and Pediatric)
- Clinical Disease Management Certification

### ■ Simplified approach. Team commitment to YOU.

The TCT approach is superior, but it is our team that truly makes the difference. Our commitment to service is personal, genuine, and tailored to your facility's needs.

For over 25 years, our team of full-time advisors has worked closely with providers to ensure that they are getting the insights and preparation they need to plan for accreditation or renewal. Our advisors are expert evaluators who are trained and equipped to save you time and money. It is a personal level of service and care that is unmatched in the industry.

### ■ The Compliance Team difference from start to finish. Included with every accreditation:

- A one-on-one advisor who walks you through the standards via a call series.
- Policy and procedures templates — saving you time.
- Self-assessment checklists to help you attain and retain your accreditation status.
- Live and recorded webinars, making the accreditation process flow more smoothly.
- Access to our patient satisfaction portal, allowing you to benchmark your patients against thousands of others.
- A three-year payment schedule with no additional fees.
